PROFESSIONAL SUMMARY

Frontend-focused Full-Stack Software Developer with 3+ years of experience delivering digital solutions for customer-facing platforms, payment integrations, secure authentication systems, and business process automation. Experienced in working with financial technology tools including Stripe and Paystack, supporting transaction processing, user account management, and data security. Strong analytical, problem-solving, and stakeholder collaboration skills with a proven ability to improve operational efficiency and customer experience.

PROFESSIONAL EXPERIENCE

Labwox - Remote, Nigeria

(April 2023

- Present)

Full-Stack Web Developer

Project: Cerium6 / LabSoft — Enterprise Multi-Tenant LIMS SaaS Platform

- Architected a 3-tier multi-tenant LIMS SaaS using Next.js 14 and Firebase, implementing strict RBAC and secure data isolation.
- Developed an automated PDF generation engine for compliant lab certificates, featuring digital signature integration and dynamic layouts.
- Engineered high-performance analytical dashboards and data grids using TanStack Table, Recharts, and Redux Toolkit.
- Implemented robust forms, schema validation (Zod, React Hook Form), and document parsing pipelines (SheetJS, Mammoth) for seamless data ingestion.

Market Master USA – Remote, USA

(October 2024

– Present)

Front-end Software (Web) Developer

- Architected and deployed 20+ web applications using React, TypeScript, Node.js, and WebSockets across real-time communications, construction tech, healthcare, and financial services.
- Built WebRTC-powered virtual conference platform supporting multi-user video/audio calls, screen sharing, dynamic room routing, and custom FFmpeg media processing.
- Spearheaded the Zenith Properties software suite, constructing connected Client, Contractor, and Admin dashboards that automated inspection requests and job management workflows.
- Engineered automated credit tracking & dispute tools empowering users to monitor financial health across personal and business credit categories.
- Developed HIPAA-mindful patient referral tracking system, improving provider-to-patient intake turnarounds and case oversight.
- Standardized modern UI/UX design systems, building reusable, glassmorphic React component libraries with dark mode support, fluid micro-animations, and 100% mobile responsiveness.

Davies Limited – Remote, Nigeria

(April 2024 –

June 2024)

Software Engineer

- Refined the management system's interface using Vue.js to deliver a more intuitive and cohesive user experience.
- Architected backend API integrations to eliminate navigation bottlenecks, resulting in a 15% surge in overall customer engagement metrics.

Streams Foundation – Remote, Nigeria

(December 2023 –

March 2024)

Front-end Developer

- Translated intricate Figma mockups for landing pages and profile dashboards into high-fidelity, functional code utilizing Next.js.

- Engineered seamless API integrations for real-time data rendering while partnering on iterative design cycles to maximize product accessibility.

Hotels NG (Zuri HNGix) - Remote, Nigeria

(September 2023 –

October 2023)

Front-end Developer (Internship)

- Developed responsive web apps using React and Tailwind CSS, ensuring high-quality user experience across devices.
- Collaborated with a team to address key issues in several applications, employing agile methodologies to ensure timely project delivery.

AREAS OF EXPERTISE

- Frontend Development: React, Next.js, Vue.js, TanStack Query, Shadcn UI, Framer Motion, Radix UI
- Backend Development: Node.js, PHP, Laravel, Python, Firebase
- FinTech & Payments: Stripe, Paystack, API Integrations
- Web Technologies: JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS
- System Security: Secure Authentication & Customer Data Protection
- Performance & SEO Optimization

CORE SKILLS & COMPETENCIES

- Agile Methodologies & Collaborative Development
- UI/UX Implementation & Responsive Design
- Payment Processing & Transaction Management
- Problem Solving & Analytical Thinking

TECHNICAL KNOW-HOW & TOOL

- **Languages & Frameworks:** React, Next.js, Vue.js, Node.js, PHP, Laravel, Python, TypeScript
- **State & Data Fetching:** Redux Toolkit, TanStack Query (React Query v5), Context API
- **Styling & Animation:** Tailwind CSS v4, Radix UI, Shadcn UI, Framer Motion
- **Backend & Cloud:** Firebase Auth, Cloud Firestore, Firebase Storage, Firebase Admin SDK
- **Data & Tables:** TanStack Table v8, Recharts, Date-fns, Lodash
- **Forms & Validation:** React Hook Form, Zod, @hookform/resolvers
- **Document Processing:** @react-pdf/renderer, SheetJS (xlsx), Mammoth (docx), react-signature-canvas, DOMPurify
- **Tools & Infrastructure:** Git, GitHub, Vercel, Figma, Jira, Stripe API, Paystack AP

EDUCATION

Obafemi Awolowo University

B.Sc. Civil Engineering

ADDITIONAL INFORMATION

- Fluent in English and Yoruba (Native-level)
- Professional Interests: Financial Technology, Payment Processing, User Experience Design, System Security, Process Automation
- Personal Interests: Open Source Contribution, Technical Research, Emerging Technologies
